

Afforestation Grant and Premium Schemes 2011

The following changes will take effect in respect of the Afforestation Grant and Premium Schemes 2011 for financial approvals issuing from 1st January 2011.

1. **The grant rates have been adjusted as per the table below.**
2. The forestry premium rates remain unchanged for existing contracts.
3. **For new applications from 1st January 2011** there will be no differential between premiums based on the area planted. All new applications will receive the premium levels paid currently for areas greater than or equal to 6 ha but less than 12 ha (i.e. the middle category). However, the premium rates for unenclosed land have been reduced (**See Table below**).
4. The stocking densities of oak, beech and alder have been reduced and this will have a direct impact on the cost of plants and planting and other associated costs i.e.

Alder density reduces to 2,500 stems/ha.

Oak & Beech density reduces to 3,300 stems/ha.

5. The amount of unenclosed land in any application for financial approval cannot exceed 20% of the total area. This also applies to the Native Woodland Establishment Scheme. Applications that currently have in excess of 20% unenclosed land will not be eligible for grant aid unless their application is amended to meet this new requirement.

Applicants must submit a revised map and plot table prior to financial approval.

6. Provisions have been made in the grant structure to encourage the use of fencing materials that comply with IS436.

Further details on this will follow.

7. The 10% broadleaf requirement, site permitting, remains in place. This requirement may now be met by (1) plots of broadleaves and (2) additional broadleaves planted for landscape and environmental reasons, which includes any broadleaves planted in a GPC 3 plot used also to satisfy the 10% diverse requirement, or a combination of these.

Afforestation Scheme: Grant Rates effective 1 January 2011

GPC	1 st Grant €/ha	2 nd Grant €/ha	Total €/ha	Additional Fencing Allocation €/ha IS436	(Alternative Fencing Allocation €/ha Non IS436)	Total Available Funding €/ha
1-Unenclosed	1500	500	2000	400	350	2400
2-Sitka spruce / lodgepole pine	2200	700	2900	400	350	3300
