REF: Circular 6- 2011: Revised Mapping Standards

Please find attached revised mapping standards. They include a number of revisions based on feedback received since the issue of Circular 4/2011.

All Form 1's received after the 1st June 2011 must comply with these standards. These changes include the requirement to submit paper based maps at a scale of 1:5000.

To facilitate the changeover period the Forest Service will continue to accept outstanding Form 2 and 3 maps at the scale of 1:10560 or 1:5000.

Bridgeena Nolan
