

### Vacancy: Forester Position

Euroforest Ireland is the largest independent provider of timber harvesting and marketing solutions in Ireland. Recently formed through the merger of both national and international entities, our managers have in excess of 25 years of progressive development and more than 50 years' experience in maximising returns for our clients throughout Ireland. Activities nationwide are supported by our head office in Arklow, Co. Wicklow.

Clients of the company include large private estates, investment trusts, professional forestry managers, community associations and farmers. Delivery of the best possible value for growers, whilst enabling the aggregation and supply of substantial volumes of wood raw material to the forest industry is the unique selling point of the company.

Euroforest Ireland supplies the entire Irish market north and south, from small-scale millers through to the largest processing and pulp using operations

A vacancy has arisen at forester level. The successful candidate will be based in the **Clare/Galway area**. This is an opportunity for a motivated and ambitious individual to join a leading company in the forest products industry. Above all, we are seeking a person with enthusiasm and the drive to succeed.

#### **The Role**

As we already have a nationwide network of forest managers in place the successful candidate will be expected to integrate with the present workforce and establish their own client list. Ecology support will be available from the applications team Ecologist.

Responsibilities will include:

- Felling licence, forest road, woodland improvement applications
- Ash dieback RUS applications
- Site Inspection for mapping purposes
- Advising owners on best forest practice and maximising financial returns.
- Maintaining inventory and financial data on bespoke management systems
- Working with ecologists, completing environmental reports
- Maintaining industry standards on health and safety and Forest Management Certification

The mark of  
responsible forestry
